

## EMERGENCY 911 GREY'S ANATOMY

It was a dark and stormy night...The ambulance becomes disoriented in the thick Valley fog. Suddenly a kit fox family bolts across the slick pavement. Veering to miss the "oh so cute" beasts, the driver loses control of the vehicle and careens into an almond orchard! Oh no, how can this be? Is this a dream? Are you watching this horrific scene unfold? Or, are you the driver, or a patient? Confusion! BLACK OUT. You awake still confused but with a sense of urgency. You see lights, you hear action! Is it help? Who are these people? They seem so familiar. You hear voices and names. McDreamy, is it? McSteamy? Izzy? What's an "Izzy"? It's all so unclear - so confusing. But where are you? The fog lifts. You recognize this place. There's a name, a sign. It's becoming clearer... something like Seaside, Seashells... something. No, now you see it...SEATTLE GRACE! Yes, it could be a dream or it could be real - but make no mistake YOU ARE THERE!
